Consortium/LLNL at: http://image.llnl.gov Series: IRAK Plate: 110 Row: p Column: 4
This clone was selected for full length sequencing because it passed the following selection criteria: matched mRNA gi: 9994186
This clone has the following problem: frame shifted.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  ATTATTACTGTGTCTACTAATGGAAGTATTCACAGCCCAAGGTTTCCTCATACTTATCCA
